

THE POLITICAL POT SIMMERING

Opposition To Davidson May Take Definite Form Within A Short Time Now.

SENATORS' FACTION MEANS FIGHT

All The State Officers Will Have Contest For Their Cus-
tomy Second Terms On Their Hands When

The Time Comes.

SPECIAL TO THE GAZETTE
Madison, Wis., April 25.—Signs are multiplying that the peace now reigning in politics in Wisconsin will be terribly disturbed before the nominations for state officers are held at the primaries next September.

Not only will the several candidates for United States senator have a merry round, but there are indications that the present incumbents of the state offices in the capitol will have to extend themselves and dig deep for campaign expenses in order to get the usual courtesy of a second term.

Recently rumors began to float about that the La Follette people were emboldened by the overwhelming defeat of R. M. Badshoff, Governor Davidson's appointee to the supreme bench, and would try to retire the governor to private life.

The good of this point, for nothing more substantial than good leaked out of the La Follette & Rogers office, was to the effect that the failure of the voters to approve the governor's selection of a successor to the late Chief Justice Cassidy evidenced the fact that the governor is not so strong with the people as he was two years ago when he went on the stump and put the La Follette-Lenroot organization to rout.

It seems uncontroversial that the governor has not regained much love from those who strenuously opposed him for the nomination in 1900. If they saw an opportunity to unseat him they would be sorely tempted to embrace it. If they do not make the try, the conclusion is irrefutable that they feel the governor is too strong.

Governor Davidson's delay in announcing his candidacy for renomination is taken as an indication that he wants to be assured that he will not be opposed by the La Follette people, for if he thinks they propose to fight him he is likely to make his fight for the biggest prize in the ring, the United States senatorship.

However, no doubt he will struggle and prefers to round out his political career with another term in the executive chair, which will make five years there for him, the same period as was enjoyed by La Follette.

NEWS FORECAST OF THE COMING WEEK

Four State Conventions and One Pri-
mary Election Will Be Held
This Week.

SPECIAL TO THE GAZETTE

Washington, D. C., April 25.—The coming week holds in promise an abundance of events that will interest newspaper readers. Politics, foreign happenings, church celebrations, conventions, sporting events and the entertainment of the battlefield fleet in the Pacific coast will share in the public attention.

More state and district political conventions will be held next week than during any similar period since the present campaign began. Of these the majority will be of the republican party. Secretary Taft will carry off the honors in the most of the states, but in the number of delegates he will be beaten out by Senator Knox, for whom the Pennsylvania state convention, to be held at Harrisburg next Wednesday, will instruct the sixty-eight delegates from that state.

Republican conventions, state and district, will be held in two New England states during the week, Vermont and Maine. From present indications both are likely to follow the example of Massachusetts in sending an unstructured delegation to Chicago, with the majority of the individual members presumably for Taft. The Taft managers expect to get the Colorado delegation and also have hopes of capturing West Virginia, whose state convention is to meet at Parkersburg Tuesday. Of the southern states in which republican state conventions will be held during the week, Maryland and South Carolina are regarded as somewhat doubtful in their choice for the presidency. Arkansas, Mississippi and North Carolina are placed in the Taft column. The anti-administration republicans of Alabama will meet in state convention in Birmingham Wednesday and will choose a delegation to Chicago that will oppose Taft.

The week will likewise be one of great activity for the democratic. Chief interest will center in the state primary in Texas, which has already developed into one of the most bitter political contests the Lone Star state has ever witnessed. The point at issue is whether or not Senator J. W. Bailey shall be one of the delegates at large to the Denver convention. Other democratic happenings that will attract attention will be the state conventions in Connecticut and New Jersey. In both states the signs seem to point to unstructured delegations to the national convention.

The presidential aspirants of both parties will be heard in public

UNVEIL MONUMENTS TO DEAD SOLDIERS

DeKalb County, Georgia, Erects Shaft to Its Dead Confederate Soldiers.

SPECIAL TO THE GAZETTE

Decatur, Ga., April 25.—A handsome Confederate monument was unveiled here in the public square today with interesting exercises and in the presence of a large crowd. The monument consists of a thirty-foot shaft of granite, pyramidal in shape, the base of which bears the names of the soldiers of DeKalb county who died in the war.

To Unveil Confederate Shaft

Washington, D. C., April 25.—Everything is in readiness for the unveiling of the handsome Confederate monument that has been placed in the public square in this city. The shaft is of granite, twenty-five feet high and surmounted by a statue of a private Confederate soldier of Italian mastic.

Speeches in several parts of the country, William J. Bryan will circulate through the middle west. Taft will be heard Tuesday night in New York city and Governor Johnson has accepted an invitation to speak in Detroit Wednesday night.

The American battleship fleet will spend the entire week in the harbor of Santa Barbara, where an elaborate round of festivities in honor of the officers and men will be carried out.

The centennial celebration of the New York diocese will be the cynosure of all eyes in the Catholic world, attended, as it will be, by all of the dignitaries of the church in this country and several from abroad.

Portugal is awaiting with some anxiety the reassembling of parliament next Wednesday, when King Emanuel will personally take the oath before that body to observe the constitution of Portugal.

Four of the southern states will observe Monday as Confederate Memorial day, and throughout the north the same day will be celebrated in honor of the birthday of General Grant. The state prohibition election in North Carolina will be another event of interest.

JURY THINK THAT WOMAN IS INSANE

Bring in a Verdict to That Effect Af-
ter Being Out All
Night,

SPECIAL TO THE GAZETTE

Green Bay, Wis., April 25.—The jury in the case of Mrs. Mary Sherlock of Dupoer charged with arson returned to the municipal court this morning after being out all night with a verdict of not guilty. The jury found that Mrs. Sherlock was insane at the time she set fire to her home and that she had not recovered since and is still of an unsound mind. Upon the verdict Judge Monahan issued an order committing her to the Northern Hospital for the Insane at Oshkosh.

Chief interest will center in the state primary in Texas, which has already developed into one of the most bitter political contests the Lone Star state has ever witnessed. TAFT WILL BE THE SECOND CHOICE OF BADGER DELEGATES

Claimed That Taft Will Get Ten Votes From Wisconsin If He Needs Them.

SPECIAL TO THE GAZETTE

Milwaukee, Wis., April 26.—The Daily News today prints a story from Madison in which it claims to have information from La Follette headquarters to the effect that Secretary Taft will be the second choice of the Wisconsin delegation for the presidential nomination at the republican national convention in Chicago.

Should the time come when Taft will need but ten votes or more to assure him of the nomination this number will be forthcoming from Wisconsin. The leaders of the Taft movement for second choice are the four delegates at large and district delegates Klecker, Knell, Garrison, Cady, Bradford, Murphy, and perhaps State Senator Honney Lockney. The break in the delegation may also have an important bearing on the contest for republican national committeeman from Wisconsin which must be decided during the republican national convention in Chicago. Senator A. W. Sanborn of Ashland is the La Follette choice of the position, as has already been announced in the Daily News.

PULLED A BURGLAR OUT BY THE HEELS

Officer Morrissey Captured Six-Foot Polack Trying to Wriggle Into Spellman Store This Morning.

Fritz Botan, a six foot individual of Polish extraction, had wriggled himself nearly through a window-pane aperture in the rear door of J. L. Spellman's cigar store on West Milwaukee street at two o'clock this morning when Officer Morrissey grabbed him by the heels and yanked him out again. The patrolman, covered his capture with a revolver while examining him for firearms and then escorted him out of the alley. Night watchman George Palmer happened to be passing when the two reached the street and he assisted in guiding the burgher to the police station.

There is a sort of an open court in the rear of the Spellman store, formed by the extenstions southward of the buildings on either side, and the alley is perhaps forty feet wide. The night was one of ink-blackness and the Pole must have been working there industriously for some considerable time. With his jack-knife he had cut away most the wood and putty which hemmed in the small window pane and removed the glass. A small piece, however, was evidently left in the mesh on one of his thumbs was cut in the process of hauling him out of the hole.

When searched at the station, a memorandum book bearing the name Leslie Dodge of Durden who was one of the witnesses in the Florence Dugan trial; a tablet bearing the name of Bill Bowles of Lake Geneva, a piece of candle, a leather-bound diary containing a clipping from a Russian newspaper, a new pipe filled with steel pens, a large wire-spiked sharpened to a chisel edge and bent in the middle, a screw-driver, a button hook, and a collection of trunk-keys were found upon him.

Botan pretends to be on no very intimate terms with the English language but with some effort made it understood that he was very hungry and had taken Spellman's store for a bakery; that he was 23 years old; and that he was in Durden yesterday and had originally started on his tour of Southern Wisconsin from Chicago where he had three months in a municipal boarding house.

Officer Morrissey's method of attack was highly in keeping with his reputation as a brave guardian of the peace. "It would have been more discreet, perhaps, to have gone for help while the fellow was ransacking the store," said Mr. Spellman in speaking of the incident. "As there was only change amounting to about a dollar in the cash-drawer, the burglar would have been able to get no more than the cigar and pipes he could lug away." Judge Field is in Chicago today and it was decided not to bring the prisoner into court until Monday morning.

WIND STORM HAD A VERY SINISTER LOOK

Blew Last Evening Just Before Six Did Considerable Damage.

Throughout the City.

Just about the time the tornado appeared in the southern states, a severe wind storm arrived in Janesville and for a few minutes before six made things lively throughout the city. In one of the hotels a bellboy became so frightened that he dashed from room to room warning the guests of a cyclone, and people on the streets hurried for shelter and store-keepers shut up their shops. The two front doors of the Lennard-Underwood store were blown shut and broke the plate glass in a thousand pieces. The glass is fully 5/8-inch thick. One strong gust did the damage on both doors. The crash of the glass sounded like a cannon-report. The roar transonic of the J. M. Roswick store was blown in by the storm. The painter who had been working some weeks ago loosened the glass and forgot to put in the fasteners and when the wind came up it blew the glass out. About 25 people were in the rear of the store when the accident happened, but none were hurt. The wind had a clear sweep over the river and heated the waters high in the air. Several tall chimneys were seen to sway under the fury of the wind, which was followed by a heavy rain. The clouds for a time took the dreaded cone shape indicative of a cyclone, but soon broke.

Deo Moline, Iowa, April 25.—To range for a public fast-washing for 100 people in June in Deo Moline is the difficult task assigned to J. H. Moore of Elgin, Ill. Beginning June 1, the Dunkards of America will hold their convention in this city. At that time 15,000 are expected. One of the features of the gathering is a great fast-wash, followed by the fast-washing in support of the Lord's fast. The Dunkards will be in Deo Moline several days. Elder Moore has been in Deo Moline frequently of late making arrangements with the Commercial club for the entertainment of the guests. It is planned to have a great camp ground and a men's tent for the general assembly.

Senator Whitehead Honored: Governor Davidson has appointed Senator John M. Whitehead a member of the Wisconsin delegation to the National

Conference on Charities and Correction which will be held in Richmond, Virginia, from May 6th to 13th.

LIEUT AYRES REGIONS.

Probable Result of "Easter Overcoat Incident" at West Point.

Washington, Apr. 25.—Friday's army orders announced the resignation of Second Lieut. H. Fairfax Ayres of the Seventh cavalry, son of Lieut. Col. Charles G. Ayres of the Fourteenth cavalry, retired. Lieut. Ayres' resignation has been accepted by the president to take effect May 14, next. The positive statement is made that Ayres' resignation was voluntary.

Lieut. Ayres was a cadet at West Point last spring when the "Easter overcoat incident" occurred, on which occasion several of the cadets loaned their heavy coats to girl visitors to protect them from the weather. This was contrary to orders and met with the disapproval of the commandant of cadets; Col. Howe, Miss Ayres, a sister of young Ayres, was among the girls visiting the academy at the time. Her mother took up the matter and a controversy sprang up, the final effect of which was the issuance of an order from the war department forbidding Mrs. Ayres' admission to the West Point military reservation. Thereupon Col. Ayres, the father of Cadet Ayres, espoused the cause of his wife and in an interview was alleged to have criticized army methods employed in dealing with the trouble between Mrs. Ayres and the West Point authorities. He declined to answer whether he had made certain statements in that interview, on the demand of the war department, and was ordered before a referee board and retired on account of disability incident to the services, July 21 last.

THE DECKER DEATH-MASK OF SHAKESPEARE—SHAKESPEARE'S BIRTHPLACE ON RIGHT—THE SITE OF THE PROPOSED SHAKESPEARE MEMORIAL IN LONDON—ANNE HATHAWAY'S COTTAGE AT BOTTOM.

Thursday marked the three hundred forty-fourth anniversary of the birth of William Shakespeare. In that humble home in Stratford-on-Avon was born that greatest of all poets, Shakespeare, whose writings of mankind still endure. Today his plays are better appreciated than ever before. He was the master mind. He understood the basic positions of humanity, and clowned his thoughts in purest poetry.

Around his birthplace he grew into manhood. Here he courted and won sweet Anne Hathaway, who lived one mile west of Stratford-on-Avon. Anne Hathaway's cottage has been recently purchased and given to the nation.

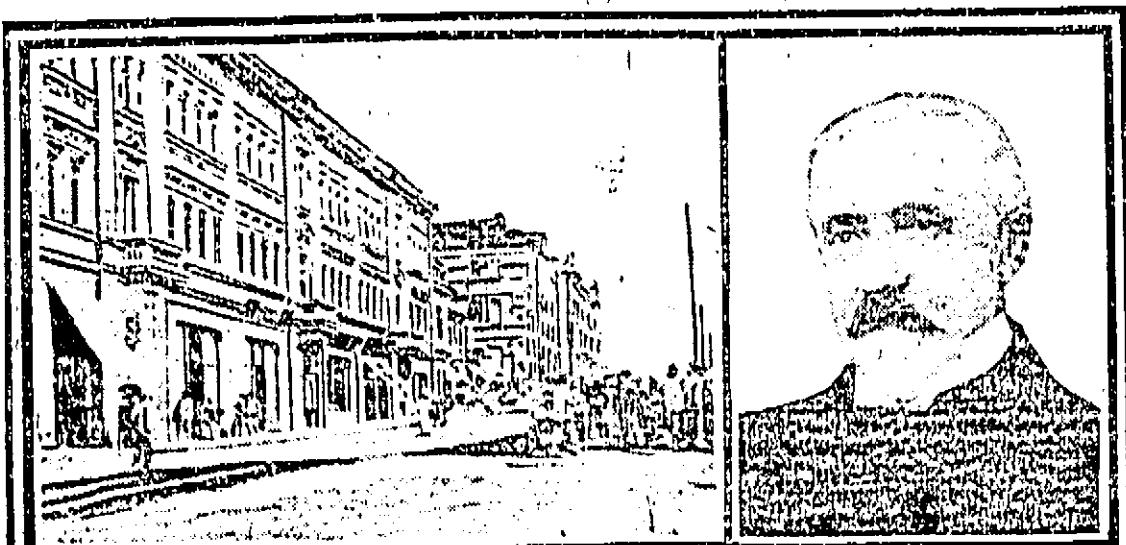

Shakespeare's old home has also recently been restored as far as possible and stands today as a fitting memorial to the bard of Avon.

There is now to be erected in London a \$1,000,000 memorial in his honor.

This will be located on a site in Park Crescent, and face Portland Place. The cross in the picture above indicates its exact location.

The Decker death-mask was found in Madrid in a broker's shop among bric-a-brac and junk, and identified as Shakespeare's.

And Baron Rosen, Russian Ambassador to The United States.

Washington, D. C., April 25.—The controversy over the Chinese Eastern railway from Harbin to Port Arthur and to Vladivostok is apt to involve the United States. Baron Rosen, the Russian ambassador to the United States, had a long conference with Secretary Root of the state department at which Russia's sphere of influence, authority and interest in Manchuria is understood to have been the subject for consideration.

Baron Rosen wants to know why the czar's authority is denied at Harbin. The whole trouble arose out of the "open door" policy assured Manchuria in the Russian treaty and announced as a permanent principle by the late Secretary John Hay. Harbin is the point of juncture between the Trans-Siberian railway running to Port Arthur and to Vladivostok and thus is the central point in the situation.

This is the first step taken by the United States toward maintenance of the "open door" to China. By the terms of the treaty the Chinese were to have the director of the Chinese Eastern railway and he was to reside in Peking. This has not been lived up to, as the director is a Russian residing in Harbin. In the treaty of Portsmouth, which ended the war between Russia and Japan, it is explicitly agreed to complete and simultaneously evacuate Manchuria with the exception of a portion of the Liao-Tung peninsula.

Ferdinand Pinney Earle And His "Soul Mate," Who Was Miss Kuttner.

Monroe, N. Y., April 24.—Ferdinand Earle, the eccentric, sociopathic artist who recently gained fame by his affinity idea, has just returned to his home in this town after a stay of about a year aboard. His personal appearance has changed remarkably. When he left here mild fevers and bleeding after deserting his wife and little son for his "soul mate," he wore a virgin beard, stone hat, sandals and gave an appearance of sloth. Today he returns from the continent with naturally derby, cleanly shaven face and tailored clothes of the latest designs, recently prosed.

On the night of his arrival the old spirit predominated the citizens and a number of young men undertook to give him a shivaree, which he would remember. The so-called town band consisting of several bass drums, snare drums and a flute, was called into action and the parade started for his country estate just outside of Monroe. When they arrived there they marched to the house and were greatly surprised to find Mr. Earle standing on the porch and, with a hearty laugh he welcomed them into his house. They stood around sheepishly for some time and finally one of them said they wished him great happiness. He assured them he was perfectly happy and he hoped this was an indication of the good-will of the citizens toward him.

Mr. Earle, it will be remembered, while studying art abroad, fell in love with a French girl, whom he married. After the birth of their son he became aware of the fact that he did not truly love his wife. Who engaged in sociopathic work in New York he met Miss Kuttner, who shared his own belief regarding heaven-made matches. He returned to his home, told his wife the conditions and convinced her she should return to her home in France and accept a divorce, which she did. The divorce has just been granted and Mr. Earle and Miss Kuttner have been legally married.

SENATOR CLAPP OF MINNESOTA MADE A BIG CHIEF.

Washington, D. C., April 25.—Senator Moses E. Clapp of Minnesota now is entitled on three counts to take the warpath as a real red Indian.

In Minnesota, where there are so many Indian names, he is known as the "Black Eagle" because of his great size and long black hair.

He is chairman of the Senate committee on Indian affairs and is familiar with the red men and the work of the government in their behalf.

Today, as a climax, he was made a chief of the Crow tribe and was presented with a big war bonnet of eagle feathers. The senator actually blushed with confusion when the tribal office was conferred upon him and thereby assumed even the color of an Indian.

To see the senator's own description of his feelings, he was "completely flabbergasted" when Chief Plenty Coons and fellow tribesmen, who have been witnesses before the senator's committee for three weeks, walked into the committee room today and notified the "Black Eagle" of his new position.

Chief Plenty Coons said he was so pleased with the treatment accorded him that he wished, in behalf of his tribe, to make the senator a chief and to present him with the war bonnet.

"No more fight," said the chief.

"Live in reservation. All peace. No need war bonnet. You need it in this place. Heap scrap all time. Great Fathers all fight all time. Indian fight no more. Woe-somind, gawin (blow) woe-somind."

Senator Clapp has not decided that he will enter the senate chamber wearing the bonnet, which reaches from the head to the floor.

OUR SATURDAY NIGHT

If you see a tall fellow ahead of a crowd,

A leader of men marching fearless and proud,

And you know of a tale whose mere telling about would cause his proud head to fall and be bowed,

It's a pretty good plan to forget it.

If you know of a skeleton hidden away,

In a closet, and guarded, and kept from the day,

In the dark; and whose showing, whose sudden display,

Would cause grief and sorrow and lifelong dismay;

It's a pretty good plan to forget it.

If you know of a thing that will darken the joy

Of a man or a woman, a girl or a boy, that will wipe out a smile, or the least way annoy,

A fellow, or cause any gladness to cloy,

It's a pretty good plan to forget it.

This choice sentiment, from an unknown author, is so suggestive that it is well worth considering. He is away in the closet of every life is a skeleton, and the mantle for exposing those phantoms to the light of day, is a common mantle.

When the skeleton is trotted out, the possessor is not consulted, and is seldom present at the entertainment. He furnishes material for the exhibition, and his neighbors do the rest.

Success, in many ventures, depends upon well laid plans, faithfully carried out, but success in destroying reputation and injuring character requires neither thought nor plan. The only equipment necessary is a tongue hung in the middle, and a brain out for a holiday at the other fellow's expense.

Who is the new man across the way, lately come to town, and what do you know about him?"

"Oh, that is Jones, the merchant. They say he has failed two or three times and had a couple of bad fires; will bear watching."

The next comer picks it up; and a busy news vendor says, "Did you hear about Jones? They say he is liable to fall or burn out," and out of simple curiosity you walk down past the store looking for smoke and trouble.

The slander turns out to be fabrication, as destitute of truth as the story of Mark Twain's drowning at sea, in a vessel that founders. In denying the report Twain said the story was true in every respect except that he was not drowned, and was on land when the accident occurred.

But the injury has been done, and years are required for Jones to live down a reputation for dishonesty, because some thoughtless gossip-monger used him as a target.

A young man of clean character and wholesome reputation, becomes fascinated with the spirit of speculation and meets with losses. In a moment of weakness, and under the strain of temptation, he becomes a drunkard and pays the penalty by spending a year in the reformatory.

It was his first offence and he was no more a drunkard at heart than thou-

sands of young men who had never been tested in a similar ordeal.

When the sentence expires the young man, filled with good resolutions, steps out into life to find a different world. Old friends greet him, but there is an air of aloofness, which favors so strongly of suspicion that it chills him to the marrow.

He seeks employment with indifferent success, and finally leaves the old haunts to make a career among strangers, but finds that the world is wonderfully small, and that it is extremely difficult to get away from goods.

A girl, light hearted and gay, with heart as pure and innocent as the morning breeze, but lacking the judgment of mature years, in a moment of indiscretion invites suspicion, and a life is blighted, because the "holy tongue of slander revels in a new victim."

The good that men or women accomplish, in years of faithful living, is frequently overshadowed by the first mistake. Honesty and virtue are seldom applauded, but crime is heralded, and scattered broadcast, not only by wire and the press, but by a yellow constituency, well represented in every community.

When William H. Hearst left the Pacific coast, after demoralizing San Francisco, and came east to establish his string of yellow journals, predictions were freely made that the effort would be a failure.

New York, Boston and Chicago would not tolerate this sort of journalism. But what has been the result? Hearst knew the American people, better than they knew themselves. Today his papers lead in the cities where published. They are not only read, but liberally patronized by the business public, which all goes to show that the streak of yellow is very pronounced, in all sections of the country.

The nation is suffering today from a campaign of slander, which has been vigorously waged for the past four years, and Hearst, with his yellow journals, is the most insidious tendor.

There are a dozen magazines, equipped with a force of mock-satire writers, and a small army of public speakers, whose mission has been filled in poisoning the public mind until it became thoroughly obscured.

Legislatures, in many states, have been elected for the sole purpose of carrying out the wishes of a distorted constituency, and all sorts of radical and unjust laws have resulted.

Men like J. Hill of St. Paul are denounced and maligned and the public applauds, ignoring the fact that Hill, the great railway man, has done more for the development of the northwest, during the past twenty years, than all other influences combined.

Starting with a bankrupt railroad, he made it one of the great highways of the country, and farmers along the route were supplied with horses and cattle without charge, to aid in opening up the country.

More than this, he went across the sea and established trade relations with China, making a market for our cotton, such as we had never enjoyed.

Today Hill and Morgan, and men of their class are under the ban, because the tongue of slander has been busy.

It is well to be charitable as a nation and as individuals. The harm that we do collectively is easily shifted to "they," and yet there is a measure of responsibility from which no man escapes.

The closer relations of life, however, confine us to the limited sphere of everyday living, and this is where personal influence and conduct, tells.

The world will be better when we remember the good and forget the bad, and when the mantle of charity becomes more popular as an everyday garment.

Value of State Parks.

If the next legislature should make an appropriation to establish one state park, in some picturesque portion of the state, it would do much to enhance the value of property lying within ten miles of it that there would soon be demands for additional parks. It is the experience of states which have established such reservations that the increased taxes resulting from the enhanced value of other property in the vicinity amounts to a good return on the state's investment. The State Park Board will, it is reported, recommend the securing of several large tracts for park purposes to the next legislature.

This choice sentiment, from an unknown author, is so suggestive that it is well worth considering. He is away in the closet of every life is a skeleton, and the mantle for exposing those phantoms to the light of day, is a common mantle.

That you have often met people who had such a small number of teeth as to cause astonishment.

This indicates just what many people are doing today.

Failing to care for their teeth at the proper time.

COUNTY CONVENTION: DETERMINED CHOICE

Taft or Fairbanks Will Be Named by the Republicans of Kentucky Today.

Louisville, Ky., April 25.—The republican county conventions throughout Kentucky today are expected to determine whether Taft or Fairbanks shall have the Kentucky delegation to the republican national convention at Chicago. The final decision will come week after next when the state convention will be held. Endorsements of La Follette have been active during the past few weeks, but it is conceded that the real contest is between the vice-president and the secretary of war. Both sides are claiming the victory, but the unbiased onlookers are inclined to regard it as a very close race with about an even chance for success.

Had the delegation been selected two or three months ago unquestionably it would have been largely for the candidacy of the vice-president. Fairbanks is popular with the republicans of the bluegrass state for several reasons, primarily because Indiana, which has announced him as its favorite son, gave refuge to W. S. Taylor, who, implicated in the assassination of William Goebel, the democratic governor, fled to the neighboring state to escape arrest and possible punishment. The republican party in Indiana consistently refused to surrender Taylor to the Kentucky authorities, and the friends of the refugee, who are numerous and influential, feel they are under a debt of gratitude to the Hoosier state which can be only partially repaid by supporting its choice for the presidential nomination. Moreover, Fairbanks has demonstrated a great deal in Kentucky. During the last gubernatorial campaign he spoke frequently in support of the republican ticket. The ticket was elected by an unprecedented majority, and naturally the men in office feel very kindly toward the vice-president.

United States Senator W. O. Bradley, ex-governor of Kentucky and a politician of much influence, has been an ardent Fairbanks man. John W. Verker, who is national committee man from Kentucky, is known to be opposed to Taft and friendly to the Indiana candidate. Verker will relinquish the office he holds at the coming national convention, but he wants to be a delegate-at-large, and he is recognized by the friends of Taft to have such strength that he is likely to be named.

But the Taft managers declare that within the past two months the Fairbanks movement has been on the wane, and that the star of the secretary of war is in the ascendant. The reason lies principally in the activity of the republican machine and the federal officeholders. There are several of the latter who are working hard for Fairbanks, but the Taft people say the great majority are doing everything in their power to pledge Kentucky for the secretary of war. The negroes of the state are against the secretary of war, partially because of the Brownsville affair, but largely on account of the announced determination of the Taft men not to have a negro named as one of the delegates at large. The Taft people have claimed eighteen of the Kentucky delegates to fight for Fairbanks, but the real facts indicate a much closer race, with Fairbanks having a good chance for the majority. The suggestion that Kentucky might send a contesting delegation to Chicago is believed to have no foundation. Kentuckians declare they are too regular to permit anything of the kind to occur.

CITY FELLERS GAVE REUBEN A BIG TIME

But He Took the Wrong Train for Fellow Station and Now His Mother is Looking for Him.

Attracted by his naive remarks and the banal splendor of his attire, two commercial travelers decided to give Arthur Conrad, a seventeen-year-old gnat who had ventured into town from his home near Fellow station, the time of his life last evening. Arthur was riding out loud on the expensiveness of hotel supper and resisting the temptation to register at the Myers House when the encounter occurred. He wore the daintiest trifle of a white vest which might almost have been a belt and which permitted almost the whole gorgeous shirt-front to revel in the public gaze. The rest of the costume was in keeping with the vest.

When Arthur related the blunders of the hotel clerk, one of the traveling-men at once invited the boy to enjoy the costly meal at his hotel. The invitation was eagerly accepted. During the brief interval preceding the feast, the drummer and an associate took their charge around to see the sights and purchased for him a box of candy and some apples. The boy freely told them all about his love affairs and regretted that the "world in him" divinity was not on deck to help enjoy their entertainment. At supper, course by course, he ordered the entire bill of fare and disposed of it with evident relish. In a moment of extreme exhilaration he presented two apples to a waitress. Later he regretted this act because, as he said, the "only one" might hear of it and big trouble. When he had finished the big meal his host suggested that as he had eaten everything in sight he should pull up and procure the train ticket for a conductor, as was the custom. This pleased him as he had hinted that he would like to take the card home and show the spic.

Learning that Arthur smoked, the two royal entertainers bought him a dollar's worth of cigars. As the pocket of his vest "leaked" it was subsequently necessary for him to purchase an operation on the lining with his new jack-knife in order to get at them. The jack-knife was the object of his expedition here and when it appeared that he had spent all of his ready cash for it, the magnificient traveling-men gave him fifty cents to pay his fare home and urged him to take the earliest train and thus escape the possibility of bad company. Arthur did not follow their advice and fell in with some hooligans on a street corner who were "having a jiffy of fun" with him when Officer Sam Brown interfered and conducted him to the police station for safe keeping. The officers kept him at the station till about time for the 11:05 train and then allowed him to go on promise to go straight to the depot. It seems likely that Arthur boarded the wrong train as his mother arrived in Janesville this morning to search for him.

On Thursday last Mrs. Helen Nash entertained the Pray Do Club at a one o'clock luncheon followed by bridge. Mrs. Harry McNamara carried off the first prize and Mrs. Ralph Wheeler of Chicago the visitors' prize.

SOCIETY

JOHN SULLIVAN IS BEHIND THE BARS

It is Alleged That He Got Drunk Last Night and Drove His Family Out of the House.

On complaint of his wife, Mrs. Bridget Sullivan, John Sullivan, who resides on Glendale street was this morning arrested and placed in the lock-up. According to the complainant, Sullivan came home intoxicated last evening and while in a drunken rage not only drove his wife and son, William, out of the house but beat the latter unmercifully. According to Mrs. Sullivan, her husband had been out of employment for several months and living on the scanty income she was able to make by ironing and other work. The first time he got a job he proceeded to invest the money in drink and abuse his family. The charge which he will have to answer in municipal court Monday morning will be assault and battery.

BICYCLISTS WARNED REGARDING THE LAW

Chief of Police Appleby Calls Attention to the Sidewalk Riding Ordinance.

"So much complaint has come to me lately," said Chief of Police Appleby today, "relative to bicyclists riding on the sidewalks that I wish you would call the attention of all wheel owners to the ordinance that forbids riding on the walk." This practice is particularly true of South Main street and along the south side of the Court House park. It is dangerous for pedestrians and children and not only dangerous but dirties the wheels with the mud's mud. Chief Appleby has the names of several offenders and unless the practice is stopped may bring them into court.

Line at Top—Insanity of The World.

The above diagram shows some interesting facts concerning the world's insanity. According to the latest census report of the countries which keep sufficient tabulation of the insane to furnish an authentic report we find that John Bull, including England, Wales, Scotland, Ireland and Canada, has the highest percentage of insanity, the average being 35.4 insane people to the 100,000 inhabitants. Switzerland is second with 33.2, Germany third with 22.2, United States fourth with 19.1, France fifth with 17.5, and Hungary has the least percentage, having only 14.7 insane people to the 100,000 inhabitants. For any individual country, Ireland has the highest percentage with 19.2.

In the United States some interesting data is furnished by the census report of 1900 which shows of all the sections of the United States the District of Columbia has the remarkable total of 828,600 insane people to the 100,000 inhabitants. This would seem to indicate that Washington, D. C., has the most nerve racking environments in the country. The western states come in for their share of it, being at the top, whereas the south-

ern states have the least ratio as a general rule. Nevada of all the states stands highest with 427.4. California is second with 361.3, New York state with its Wall street and stock exchange, stands third with 339. North Dakota has the least percentage with only 1.2 insane people to the 100,000 inhabitants. West Virginia is next to the last with 1.8. South Carolina is third with 2.9. Then follow Mississippi, Ohio, Rhode Island, Vermont, New Mexico and North Carolina.

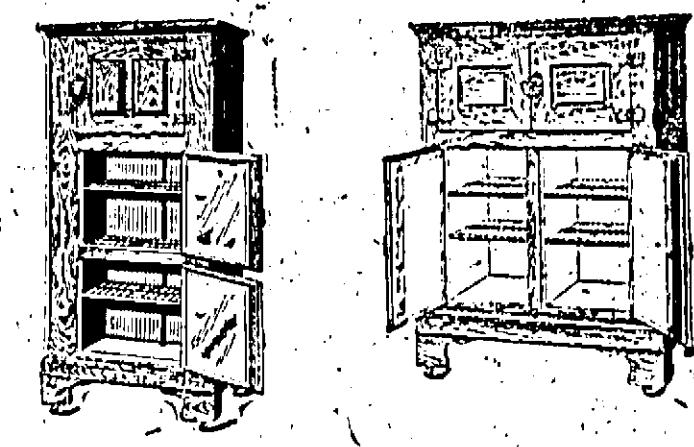

These facts seem to discredit somewhat the prevailing idea that insanity is bred in the large cities of the east rather than in the soothng regions of the west for we find a higher percentage in the western states than in the eastern. Just why the south and southwest should be the lowest is hard to understand, but it may be because they take more to enjoy life than other sections of the country.

JENKINS AFTER GOTCH.

Veteran Wrestler Wants to Meet Champion—Winner to Take All.

Tom Jenkins, America's ex-champion wrestler, is once again on the warpath. He is after the scalp of Frank Gotch, the recent conqueror of Haeckenschmidt, to whom Tom lost his laurels a year ago.

Jenkins defeated Gotch in New York a couple of years ago in the most bitterly fought wrestling contest ever held in this country. Shortly after that Haeckenschmidt took the American's measure and in doing so injured Jenkins' side. It was while still suffering from this injury that Jenkins took Gotch on in Kansas City and was beaten. Thus and again he tried to get Gotch to give him a return match, but without avail. Then Jenkins was appointed wrestling instructor at the Military academy at West Point and went into temporary retirement.

Since Gotch took the "Russian Lion's" measure Jenkins has been leading a willing ear to the call to battle. He says that if Gotch is a champion he knows that he is twice one and that he will not rest until he forces the former into a match. He is also willing for the winner to take the entire purse.

KAUFMAN READY TO FIGHT.

California Heavyweight Pugilist Willing to Meet Champion Burns.

"Al Kaufman, the California heavyweight pugilist, is ready to fight again."

So says his manager, Billy Delaney. "Kaufman has entirely recovered from the effects of his operation, which was quite a serious matter. The surgeon found an untold growth at the base of his nose, which compelled Al to breathe through his mouth. The obstruction was not brought on by a swelling, as often happens. The surgeon said he had it from the time he was a small child. Kaufman's hollow chest was produced undoubtedly by improper breathing. Now that he can use his nose he may fight in better form."

"After the operation Al went away to the country to rest and build himself up. While he was in the 'repair shop' Al had six or seven challenges. It seemed that everybody wanted to fight

him. Before the operation he had the hardest kind of trouble getting a

AL KAUFMAN, WHO IS AFTER CHAMPION TOMMY GOTCH'S TITLE.

JIU JITSU Wrestler After Gotch.

Leopold McLaughlin, champion of the Jiu Jitsu championship of the world, recently offered to meet Frank Gotch in Los Angeles for a side bet of \$5,000 in a match for the catch-as-can-championship of the world. McLaughlin states that he will guarantee to put Gotch's shoulders on the mat inside of an hour, provided he is allowed to use his own style of throws, which might compel him to alight on his shoulders for an instant to throw his opponent over his shoulders. The big Englishman says he will have the money down for Gotch whenever the latter is ready to accept his challenge.

FORTY YEARS AGO

Janesville Daily Gazette, Saturday, April 26, 1868.—A Contest.—Yesterday a snow storm all day; today, beautiful as the embodiment of spring, with the storm vanishing as by a magician's wand.

Washington, April 26.—Nelson has closed his argument in defense of the President. Evarts and Curtis were much disgusted with Nelson's effort. Mr. Grossback is to speak today. Judge Curtis will speak in place of Judge St. John.

Mr. Nelson in his speech alluded to Chief Justice Chase, arguing that he had the right to deliver a charge to the impeachment court, when all the evidence is in previous to their return for consultation on the verdict.

This has drawn out considerable comment, and it is asserted in many quarters that the Chief Justice entertains this opinion and that he will not act when the proper time arrives. We have authority for saying that those surmises are not founded on fact and that Mr. Chase has not expressed his opinion on this subject to anyone.

San Francisco, April 24.—General

Halleck has ordered two companies of troops to march against the hostile Indians who massacred the Peterson family a few days since at Long Valley, Nevada. The entire white population was in arms and in pursuit of the savages at the last advices.

Washington, April 25.—Nelson had an audience of thirty-one persons in the galleries, at the commencement of his harangue yesterday, and the same number of Senators, with five members of the House. His eloquence would be better appreciated in Tennessee. He says that when he got "warmed" up in a speech he does not know when to stop.

Another frightful calamity occurred in Chicago on Thursday night, caused by the floor giving way in a hall in which a Fenton meeting was being held. There were no less than a thousand persons in the room at the time the floor suddenly fell and the audience was precipitated to the basement. One man was killed and nearly twenty were injured. It is alleged that the insecure and shabby construction of the building was the cause of the disaster.

NOT ONLY INDIGESTION BUT ALL STOMACH MISERIES GO.

Each 22 grain Triangle will digest 3000 grains of food and cure Stomach misery five minutes after.

There would not be a case of Indigestion here if readers who are subject to Stomach trouble knew the tremendous digestive virtue contained in one 22-grain Triangle of Diapensia. This harmless preparation is eaten and tastes like candy, though one Triangle will digest a heavy meal without the slightest fuss or discomfort, and relieve the sour, acid stomach in five minutes, besides over-curing all foul, nauseous odors from the breath.

Ask your pharmacist to show you the formula plainly printed on each 22-grain Triangle of Diapensia, then you will readily understand why this promptly cures Indigestion and removes such symptoms as Heartburn, a feeling like a lump of lead in the

stomach, belching of Gas and Eructations of undigested food, water brash, Nausea, Headache, Billoousness and many other bad symptoms; and, besides, you will not need laxatives to keep your stomach and intestines clean and fresh.

If your Stomach is sour or your food doesn't digest, and your meals don't taste you, why not get a 50-cent case and make life worth living? Absolute relief from Stomach misery and perfect digestion of anything you eat is sure to follow for five minutes after, and, besides, one case is often sufficient to cure a whole family of such trouble.

Surely, a harmless, inexpensive preparation like Diapensia, which will always, either at daytime or during the night, relieve your stomach misery and digest your meals, is about as handy and valuable a thing as you could have in the house.
